

*Whatever you will need in cast steel alloys for corrosion, impact and heat resistance, BSL Casting can supply the right solution*

- Do your wear parts break or crack on impact?
- Do your cast parts corrode?
- Are you looking for a wide range of heat-resistant alloys for your cast parts?
- Are you looking for cast parts combining durability and weldability?

*BSL Casting has the know-how to supply the cast parts you need with the specific mechanical properties you want.*

Call to discuss your specific requirements with our experienced metallurgical engineers.

YOUR BSL CASTING SALES REPRESENTATIVE IS :

**BSL CASTING : PROVIDING REAL SOLUTIONS FOR ALL CAST STEEL REQUIREMENTS.**

**BSL CASTING foundry**
